

Sonic welded to bus bar

SonicFlexBus

SonicFlexBus provides a flexible space-saving profile, using flat conductors stacked between two layers of film dielectric. The sonically welded outer edges enable the flat conductors to slide freely within the insulation, allowing for ease of bending during installation.

FEATURES

- High current capacity-up to 300 A
- 600V DC Rating
- Flat Flexible Bus Bar Configuration
- UL 758 Compliant
- UL temperature rating to 105c
- UL VW-1; FT-1
- RoHS Compliant
- Available size: .100" thick x 1.5" Wide (Aprx. 1 AWG Cable Equivalent)
- Available in Any Length Required
